PROJECTS

FOCUSLY – AI Powered Personalized Learning Platform | [React](#), [JavaScript](#), [Tailwind CSS](#)

- Developed an AI-powered personalized learning platform that generates customized learning roadmaps based on user interests and goals.
- Implemented dynamic topic selection, progress tracking, quizzes, and gamified learning features to improve user engagement.
- Designed a responsive and modern user interface using React and Tailwind CSS for smooth user experience across devices.

MoviesApp | [React](#)

- Developed a movie browsing web application that allows users to explore trending and popular movies with an interactive user interface.
- Integrated movie APIs to fetch real-time movie details, ratings, posters, and search results dynamically.
- Implemented responsive UI components and smooth navigation using React and JavaScript.
- Designed clean and user-friendly layouts to enhance movie discovery experience across devices.

Social-Mate | [React](#), [CSS](#)

- Developed a social media inspired web application with interactive user interface and dynamic content management.
- Implemented features such as post interactions, user engagement components, and responsive layouts using React.
- Designed reusable frontend components and optimized UI responsiveness for multiple screen sizes.
- Utilized JavaScript and React to manage application state and improve overall user experience.
